Big Public Meeting

Farmers and Townspeople Will
Unite Saturday

The Farmers Union and the Board of Trade has united in calling a public meeting at 1 o'clock next Saturday afternoon, March 10, in the town hall, for the purpose of discussing the situation of the farmers in the district. The meeting is being called by the Board of Trade and the Farmers Union have been taking a deep interest in the situation of the farmers in the district. It is, therefore, expected that the meeting will result in some action to be taken to better the situation of the farmers in the district.

For a while it is well known that the situation of the farmers in the district is not a happy one. It is, therefore, expected that the meeting will result in some action to be taken to better the situation of the farmers in the district. The meeting is being called by the Board of Trade and the Farmers Union have been taking a deep interest in the situation of the farmers in the district. It is, therefore, expected that the meeting will result in some action to be taken to better the situation of the farmers in the district.

2217 Head Shipped
So Far This Year.

Since the first of the year, there have been 2217 head of sheep from Gleichen, according to the Brain Farm, near Hinton, Alberta. This speaks well for Gleichen for the sheep raising industry. The sheep are in good condition and the weather has been very good. The sheep are in good condition and the weather has been very good. The sheep are in good condition and the weather has been very good.

League Hockey Matches

Between 2, 4 o'clock

Thursday night last, the Gleichen hockey league matches were held at the town hall. The matches were between the Gleichen hockey team and the Hinton hockey team. The Gleichen team won the match 2-1. The Hinton team won the match 1-0.

During the play a couple of the Gleichen players were injured. One player was injured by a fall and another player was injured by a fall. The matches were held at the town hall. The Gleichen team won the match 2-1. The Hinton team won the match 1-0.

There was little other business transacted outside of the election of officers and chairmen of committees who are as follows:

President, H. B. Haas, re-elected.
Vice-President, W. C. B. B. B.
Secretary, W. P. Evans, re-elected.
Treasurer, Tom Henderson.
Retail, W. C. B. B. B.

Among other business passed were motions for the sale of the Gleichen hockey league. The motions were passed by a vote of 10 to 5.

PUBLICITY MAN FOR GLEICHEN

J. N. McDonald of the Morning Albertan
Accepts the Position

The annual meeting of the Gleichen and District Board of Trade, held last Friday evening in Moore, McKim & Henderson's office, was a most interesting and profitable one. The members of the Board and the general public were present. The meeting was held at the town hall.

Mr. McDonald has been engaged on the Calgary Morning Albertan for a number of years as a reporter and has proved to be a very good publicity man for Gleichen.

There was little other business transacted outside of the election of officers and chairmen of committees who are as follows:

President, H. B. Haas, re-elected.
Vice-President, W. C. B. B. B.
Secretary, W. P. Evans, re-elected.
Treasurer, Tom Henderson.
Retail, W. C. B. B. B.

Gleichen's Institute

A large number of Gleichen's prominent citizens met on Friday evening last, at Mr. Farquhar's office, to consider the ways and means to establish a public institute for the mental, moral and physical development of the youth of the town and district. Mr. T. Irvine acted as chairman, and briefly explained that the institute was to be established for the purpose of providing a place for the youth of the town and district to receive instruction in the various branches of knowledge and science.

DISCUSS ELEVATOR BILL

DEBATE IN SENATE ON THE NEW GRAIN MEASURE

Senator Loughheed Believes That Legislation Is Justified in View of the Frauds That Have Been Reported—Remarkable Strength of the Grain Growers' Association Is Subject of Comment.

Ottawa.—In the senate Senator Loughheed resumed the debate on the grain bill. An examination of the bill showed that a commission was to be appointed to deal with the grain question. The government had given much attention to grain inspection, but had not succeeded so far in checking the regular practices of mixing in the terminal elevators. He read an article, which stated that the seventy inspectors had failed for years to stop a practice which took money from the pockets of farmers for the benefit of elevator men, and to the detriment of the reputation in Liverpool of Canada's wheat. If the law had been properly administered in the past he thought such extensive frauds as had been alleged could not have been practiced. The new bill proposed to remedy this, and though the plan was somewhat paternal he thought that, in view of the frauds which had been reported, the legislation was justified. That the farmers were not altogether helpless was shown by the fact that the Grain Growers' association, composed wholly of farmers, had in a few years developed such a grain handling business that in 1910 it had handled 10,000,000 bushels of wheat on a capital of \$293,000, and had made a profit of \$95,000, or about 45 per cent. on the grain. Senator Loughheed said he hoped that partisan consideration would not enter into the question in selecting the three gentlemen who will form the committee. He thought that the committee should be self-supporting. Senator Douglas described the operation of milling inferior and treated wheat with sound, high-grade wheat for the purpose of bringing up the grade and selling value. The effect was to defraud the purchaser and injure the reputation of all Canadian grain in Liverpool, and in that way injured the farmers. Some held that mixing was a legitimate practice. He held that it was nefarious.

He had heard in Winnipeg the report that an effort would be made to legalize the practice of mixing. If such a proposal was made it should be refused. The bill under consideration seemed to provide machinery to remedy the practices complained of. The success or failure of the bill would depend upon the integrity and character of the commissioners. He would rather see business men than experts named as commissioners. One of the commissioners should have a knowledge of law.

Sensor Douglas said that buyers of the West had frequently bought grain at a grade below its true grade, and below that at which it sold. The result was that the farmer lost about ten cents a bushel.

The bill was given its second reading.

PRAIRIE LAND ALL TAKEN UP

C. P. R. Land Man Says Settlers Will Have to Go Back or Buy

Montreal.—F. T. Griffin, C. P. R. land commissioner at Winnipeg, who is on a visit to the headquarters in Montreal, states that within the last two years twenty million acres of government lands have been taken up as homesteads and pre-emptions. The result is that the last little bit of open prairie land in the west available for homestead entry and pre-emption has now been practically taken up and future homesteaders will have to resort to the partially wooded lands of the northern and outlying districts and will have to purchase from the railway companies and other holders. This is bound to mean a further increase in the value of land.

Was Reminiscent About Canada

London.—Earl Minto was recently presented with the freedom of the city. In acknowledging the honor, he dealt principally with Indian affairs, but in opening said: "It was in Canada that I first entered official life. Lord Lansdowne took me with him as military secretary in the early eighties. It was to Canada I returned in subsequent years as Governor General to witness the marvellous development of the gold fields of Alaska, of British Columbia, and the wheat fields of the Northwest Territories, and to wish God speed to those magnificent contingents which came to the aid of the mother country in South Africa, and stamped their names on our success at Paardeberg."

Will Be at Tete Jaune in November

Vancouver, B.C.—The main line of the Grand Trunk Pacific will be completed to Tete Jaune Cache, at the head of navigation on the Fraser river, 50 miles west of the Yellowhead Pass, at the summit of the Rockies early in November next. The rails are already laid to a point 40 miles east of the summit and near the crossing of the Athabasca river, 210 miles west of Edmonton, said J. T. Stewart, managing director of Foley, Welch & Stewart railway contractors, here recently. The beginning of November should see all the work completed, with a train service through from the head of navigation on the Fraser to Edmonton and Winnipeg.

Appeal from Order of Judge Beck

Edmonton.—The province recently filed an appeal against Judge Beck's order joining the A. & G. W. and the Canada West Co. as co-defendants with the Royal Bank. The appeal will be heard at the sitting of the court en banc on March 13.

If the province wins the appeal the Royal bank will appeal to the supreme court of Canada. This means at least six months before the main action can be brought on for trial.

FEDERATION OF CHURCHES

Presbyterian Association Launches Strong Movement in Toronto

Toronto.—A movement which will undoubtedly take rank as one of the most important in the history of the churches in Canada for many years was launched recently when, at a meeting of about 50 representatives, ministers and laymen of the Presbyterian churches of Toronto and other centres here, a strong organization, to be known as the Presbyterian association for the federal union of the churches, was effected.

The movement is the outcome of decided dissatisfaction with the proposed basis for organization of the Protestant churches, and if hopes are realized similar organizations will soon spring up in the Anglican, Methodist, Baptist and Congregational churches. The view that obtained among those present was unanimously in favor of a federation of all the Protestant churches that would make for the solution of the social problems of our large cities, that would prevent overlapping in the home and foreign mission fields, and that would stand for the ushering in of the kingdom of Christ as the present movement for organic unity among three denominations merely could not.

FOR A WHITE AUSTRALIA

Defence Authorities Are Not Giving Little Men a Chance to Gain Foothold on the Island

Melbourne.—The federal government has gone a step further in its campaign against Asiatics in Australia. Regulations are issued which have the effect of practically expelling the orientals engaged in pearl fisheries on the coast of western Australia. Although the trade is worth one hundred thousand pounds sterling to the commonwealth, the government made no scruples in carrying out its policy.

The ostensible reason of the ministry's action is that the "White Australia" policy permits no infringements such as are caused by the presence of the pearlmen on the coast, but a realization that authorities charged with the duty of securing defence on the continent are anxious to gain a foothold which would be a menace in time of trouble.

TRAINMEN TO GET INCREASE

Amount of Raise Will Be Commensurate With Cost of Living in the West—Expected Soon

Calgary.—General satisfaction has been created among the Canadian Pacific trainmen by information received a few days ago to the effect that all men west of Port Arthur would receive an increase in pay. The decision on the part of the company was reached after a few days' conference between its officials and representatives of the trainmen at Winnipeg.

Although it has been promised that the increase in wages will be made commensurate with the cost of living in western centres, the exact amount of the raise has not been given out. It is generally anticipated that the new schedule will come into effect about Feb. 1 of this year. The men expect to receive their first instalment of increased wages on the March pay-day, which comes in the third week of the month.

FRANCE WILL PRESS FOR PEACE

Will Bring Question of Simultaneous Disarmament Before The Hague Conference at Next Session

Paris.—Peace advocates in the Chamber of Deputies returned to the Chamber. The Socialist deputy, M. Sombat, submitted a motion inviting the government to open negotiations with the powers, particularly Great Britain and Germany, with a view to the simultaneous limitation of armaments and meanwhile suspend the construction of warships, advocated by the minister of marine on Feb. 21.

M. Piepon opposed this as futile, saying that the time was not ripe for such action and that a step of this kind would seriously endanger the defence of France.

Eventually the government proposed a motion inviting co-operation with the other powers to secure discussion at The Hague, of the question of simultaneous disarmament. This was adopted 447 to 56.

Dangerous Indian Dies in His Cell

Prince Albert, Sask.—Blackhand, a noted Indian who caused excitement in the Duck Lake district some months ago by breaking jail, and later being captured after being shot in the arm by Constable Biron, of the Mounted Police, has died. He had been some time in the Prince Albert jail and was discovered dead in his cell.

After being shot by the police near Duck Lake Blackhand was through the Victoria hospital here where it took him weeks to recover from his injury, during which time he was guarded day and night by the police lest he should make another effort to escape. He was avoided as one of the most dangerous Indians of the Duck Lake district.

Will Bring Over the Buffalo in April

Vancouver, B.C.—Howard Douglas, Dominion park superintendent, was here and stated that 80 of the buffalo purchased by the Dominion government and which are still at liberty in the Flathead valley of Montana, will be rounded up and shipped to Canada in April.

Buffalo park, on the G. T. P. 150 miles east of Edmonton, is the home of the buffalo herd imported by the Dominion government from Montana several years ago. They now number 950, including 150 calves, an addition of last spring.

Stamping Head of George V.

Ottawa.—The first coins made in the Ottawa branch of the Royal Mint bearing the head of King George V. were turned out recently. They were gold British sovereigns and were made off dies received from the central mint in London, which arrived here last week.

ADVICE OF GEN. FRENCH

HIS REPORT OF THE CANADIAN MILITIA PLEASES CANADA

Sir Frederick Borden, Minister of Militia and Defence, States that Government Intends to Carry Out Sir John French's Report So Far As the Whole Force of Canada Is Concerned.

Ottawa.—"We intend to carry out Sir John French's report, so far as the whole force in Canada is concerned. Perhaps not so rapidly as we would like, but not less rapidly than we have been progressing in this department in the past seven or eight years. Artillery will be received and increased to the strength it should have, and the cavalry and infantry also. The necessary arrangements will be supplied as rapidly as possible, and divisions made as the general report suggested."

This announcement was made by Sir Frederick Borden, minister of militia and defence, at the annual meeting of the Canadian Artillery association in the railway commission rooms, in the house of commons. It elicited prolonged cheers and enthusiasm from the members of the association.

Sir Frederick stated that the report had been pleasant reading to him, in so far as the artillery of Canada was concerned, and he thought it should be very satisfactory to the militia as a whole.

General French had not considered in his report, and had not been expected to do so, the difficulties existing in Canada as regards the forming of regiments, the getting of officers and men, etc. He had been expected to report on the force as he found it, as a unit ready to take the field, and he had done so.

"Our friends of the press published all about the report before they knew anything about it," said the minister. "But since it was issued we have not heard so much about it. They have quieted down."

"It was a most fortunate thing for the militia of Canada that such a great authority as General French paid them a visit. I consider that his opinion is of more use to Canada than that of any other living man."

"It was not his business to look into difficulties. He looked at it as a fighting force. One of the difficulties met with in England also is in getting officers and men. We have to rely on men for officers who have a distinct taste for military work."

Sir Frederick, in reply to a question, told the association that he was submitting estimates to the cabinet for the sending of an artillery team to Great Britain this summer, and he had great hopes that it would pass.

NEW B. C. RAILWAY

Canadian Pacific Railway Call For Tenders for Kootenay Central Line

Vancouver.—The C. P. R. has called for tenders for the construction of thirty miles of the Kootenay Central south from Golden, B.C. Ten miles of the grade out from Golden were completed several years ago, and the new section will be the extension through the Columbia river valley. The southern terminus will be Galloway station on the main line of the Crow's Nest Pass railway near Cranbrook. The contract for building thirty miles of this line north from Galloway was awarded last year to Foley, Welch and Stewart. The work is nearing completion.

The opening of a direct line from Golden to the Crow's Nest branch of the C.P.R. will greatly increase the influx of settlers to a region which has great agricultural and fruit-growing possibilities. This will comprise the principal construction to be carried out by the company this year in British Columbia.

Corrects Impression

London.—Canon Welch, vicar of Wakefield, and late of Toronto, writes the Standard: "I am given to understand that there is a general impression in this country the impression that it is a matter of frequent occurrence for Canadians to go across the border into the U. S. A. to procure divorces, which they cannot obtain in their own country. May I be allowed to say on the strength of fourteen years' residence in the Dominion that I believe such impression wholly without foundation. Since 1905 the Anglican clergy in Canada have been explicitly forbidden by a canon to solemnize a marriage between two persons, either of whom have been divorced, if the former partner is still living. It would be well indeed for the motherland if she followed the example of her daughter in this matter."

Anarchism in Japan

Tokio.—The spread of anarchism in Japan was the basis of an attack upon the government in the Diet recently.

The members of the opposition introduced a resolution censuring the government for having permitted outlaws to reach a point where an attempt upon the life of the Emperor had been planned.

A large majority of the resolution was defeated by a recent conspiracy, which resulted in the execution of Denjiro Kotoku and his wife, and the imprisonment of fourteen. Premier Katsura outlined the efforts which were being made to prevent the growth of the movement.

2,500,000 Chinese Face Famine Death

New York.—Advices from China to the American Press society made public last night in Alberta, north-west of Edmonton, during the past two years and there has been considerable friction among the settlers in consequence.

SCHEME FOR PUBLICITY

Towns From Red Deer North Unite to Raise About \$16,000

Edmonton.—Twenty-two delegates representing the Boards of trade and publicity bureaus of a dozen towns and cities of Northern Alberta, with Edmonton as the central point, pledged themselves at a convention in the Board of Trade rooms recently to assist in raising the sum of \$16,000 for a huge publicity campaign to advertise the advantages of the Northern Alberta towns and cities and the district.

One of the primary objects of the campaign will be to remove the impression created by the name of Northern Alberta, which has always been applied to towns and cities now concerned in this movement, and which will henceforth be known as being in Central Alberta.

All towns and cities from Athabasca on the North, which, in fact, are the real geographical centre of the province, to Red Deer on the South, and from Edson on the West, near the mountains, to Lloydminster on the East, at the eastern boundary of the province, have been invited to participate in the movement and it is probable that the majority of them will do so. The campaign includes 20 centres.

Representatives were in attendance from a dozen towns and cities. J. K. Cornwall was present on behalf of the Board of Trade of Athabasca Landing. Others at the meeting were: William Watson, Viking; Frank Wilson, Vegreville; R. B. Douglas, Strathcona; J. H. McDonald, Strathcona; A. Davies, Strathcona; C. W. Gaetz, Leduc; S. G. Tobin, Leduc; R. N. Williams, Tofield; T. G. McPherson, Lamont; W. Badin, Hardisty; M. F. Dunham, Camrose; J. R. Davidson, Red Deer; T. W. Edwards, Sedgewick; David Mitchell, Stettler; M. Harper, Sedgewick; P. Mullen, Millet; A. J. Hamilton, Millet. Other towns that have been invited to participate are: Bawlf, Entwhistle, Edson, Holden, Daysland, Fort Saskatchewan, Mannville, Ponoka, Wainwright, Wetaskiwin, Lacombe, Strone, Killam, Castor, Alix and Irma.

According to the proposal which is nearly approved, the delegates met to raise the sum of \$16,000, and this is to be raised by assessment on each Board of Trade according to the population of the towns represented. The estimate of assessment necessary which was made by the delegates present, placed the figure at 30 cents per head of population of the towns represented. The delegates pledged themselves to raise the fund. Every board that enters the movement will be asked to contribute on the above basis.

The fund will be expended in publishing and distributing suitable literature, advertising Central Alberta and in other means of publicity.

CHANGES IN THE CRIMINAL LAW

Dr. Shearer Calls Upon Sir Wilfrid Laurier With Some Suggestions

Ottawa.—Rev. Dr. Shearer waited upon Sir Wilfrid Laurier recently and asked for number of amendments to the criminal code. He suggested that it be made more difficult for offenders to get what is known as straw bail for persons who have been convicted and enter an appeal. Under existing conditions Dr. Shearer said bail of men of no standing is accepted. He suggested an amendment to the criminal code that police cities should be given the same right to raid disorderly houses as they have to raid gambling joints. Under the law as it stands disorderly houses can be raided only when it is expected that liquor is being sold and a warrant has been issued empowering police to search for it.

CANADA'S OFFER TO CAPITAL

A. W. Smithers Says Finest Investments in the World Are in the Dominion

London.—A. W. Smithers, chairman of the Grand Trunk, presided at a meeting of the English Association of American Bond and Shareholders said that the reciprocity agreement that although there might be some dislocation of individual interests for a time he thought the effect on Canada as a whole must be good.

They could not yet estimate what would be the effect of free commercial intercourse between eight millions of people in Canada and ninety millions in the United States.

He predicted a great demand for capital from Canada. Securities for all this work would form, if properly selected, some of the finest investments in the world.

Lord Strathcona Speaks for Canada

London.—In a lecture before the Imperial institute recently by Lord Strathcona, Lord Strathcona also present the Duke and Duchess of Argyll, Lord Strathcona referred to the gratification with which the appointment of the Duke of Connaught was received by the people of Canada, not only because of the close connection with the throne, but also on personal grounds. Canadians had the pleasant recollections of the sojourn of the Duke and Duchess of Argyll at Government house.

Immigration of Negroes Stopped

Winnipeg.—The Dominion government has decided to stop the immigration of negroes from the United States into Western Canada, and have stopped at the boundary a party of negroes as undesirable citizens. Quite a number of negroes have taken up land farmers in Alberta, north-west of Edmonton, during the past two years and there has been considerable friction among the settlers in consequence.

New Guns for British Dreadnought

London.—The Morning Post announces a new gun of fifteen-inch bore to supersede the 12 and 13.5 guns in the Dreadnoughts. It also prints rumors of a new development in the shape of a three-inch gun on the main rapid fire principle.

FAVOR PEACE PROPOSAL

PEACE COMMISSION IDEA IS HEARTILY WELCOMED

Sir Edward Grey Expresses His Sincere Interest in the American Suggestion for the Appointment of a British Peace Commission—Britain Prepared to Enter into Exchange of Views With United States.

London.—The American suggestion for the appointment of a British peace commission to act with similar commissions of other countries in the furtherance of the principle of arbitration and international concord is again brought to the fore in a letter written by Sir Edward Grey in reply to an inquiry on the subject from Duncan Vernon Prie, M.P., a member of the council of the inter-parliamentary union.

The British foreign secretary says that Mr. Reid conferred with him on the matter in December when he informed the American ambassador that this government had the deepest interest in the plan for an international agreement, and for this purpose would be prepared to enter upon a frank and full exchange of views with the United States government on the subject and to lend support to any well-considered and practical proposition that might be put forward by the American government.

Sir Edward added that the British government would welcome the joint resolution of the senate and house of representatives and look forward with sympathetic interest to the conclusions arrived at by the proposed commission. If the latter were able to formulate a plan on definite lines the same would receive most friendly consideration by the British government.

CANNOT DISMISS BOULLION

The Edmonton City Council Are Restrained From Firing Their Commissioner

Edmonton.—A. V. Bouillon is still utilities commissioner of Edmonton, despite the city council, who have been three times thwarted in their attempts to dismiss him. A special council meeting was called for Saturday evening, hoping thus to outwit the citizens' committee, who arranged for a public meeting this week.

But here came the rudest shock the aldermen have yet received. As they filed into the council chamber, crowded to overflowing with citizens, each member of the board was served by O. M. Biggar with a copy of an injunction issued by Chief Justice Hargrave, forbidding them to hold a council meeting before Tuesday noon, when application for a permanent injunction will be argued.

To say that the aldermen were taken aback is to put it mildly, for the latest move of the Bouillon people was totally unexpected and came as a complete surprise. There was nothing to do but obey the order, however, and the mayor declared that no meeting would be held, amid cheers for Bouillon by the spectators.

The two grounds on which the injunction was granted were that the notice of Saturday night's meeting was not on public grounds, but because of personal feeling against the commissioner.

ROSE FROM THE WATER

Several Achievements of Great Importance From the War Standpoint

San Diego, Cal.—A further demonstration of the adaptability of an aeroplane for land and water service. In a flight of six miles over the bay and across Coronado Island, Glenn H. Curtiss rose from the water, alighted on land, and then started from the land and alighted on the water. The flights were made in a wind twenty miles an hour.

Curtiss said that this exhibition probably would be the last of his series, and that he considered it the most successful from a military standpoint.

Not Bound to Surrender a Refugee

Minneapolis, Minn.—The Hague tribunal, the permanent court of arbitration, recently decided that Great Britain is not bound to surrender Vinjak Savarkar, the Indian law student, to the French government. The man escaped to French soil when his vessel on which he was bound returned to India for trial following his arrest in London, stopped in the harbor of Marseilles. He was arrested by the police and turned over to the British deputies.

The matter of the rights of political refugees was raised, and the question of whether the prisoner should be returned to the French government was submitted to The Hague Tribunal.

Sir William Mackenzie on Reciprocity

Winnipeg.—Sir William Mackenzie has revised his views on reciprocity in a remarkable interview in the London Times.

Some details of the agreement are good and some bad, he says. The fruit growers are not seriously affected, but the Western wheat will continue to go to the lakes, and there is nothing in the agreement to affect the business relations between the east and the west. The C. N. R. will connect its east and west systems within three years.

Coronation Contingent Arrangements

Ottawa.—The Canadian military contingent for the coronation will sail from Quebec on the C.P.R. steamship Empress of Ireland, on Friday, June 2, and will return by the steamship Empress of Britain, which will leave Liverpool on June 30. The several units will mobilize at Quebec at least a week before the date of sailing.

Shipload of Moslems Burned

Constantinople.—Local newspapers report the Turkish steamer Hurriet, filled with Moslem pilgrims, burned at sea. Not one of the passengers and crew escaped death. Official confirmation is lacking.

JAPANESE TREATY RATIFIED

The Treaty Between Japan and U. S. Caused Only a Short Discussion And Was Confirmed

Washington, D. C.—The new Japanese treaty of trade navigation was ratified last week, after a two-hour session, held at the conclusion of a day crowded with many important matters. While the apprehension of western senators, that the treaty might let down the bars to coolie labor was not entirely removed, the senators contented themselves with expressing their solicitude. They interposed no objection to ratification.

The action of the government in promptly confirming the new agreement is expected to do more to prove the feeling of cordiality that this country has for Japan than anything that has been done for many years. It is regarded as a manifestation of highest confidence in the advanced civilization of that nation. The effect will be to permit Japan to enter once upon a re-organization of its fiscal system and the making of new tariff with all nations.

Friends of the treaty explained that the diplomatic notes accompanying it definitely pledged the Japanese government to prevent an influx of undesirable coolies through the rigid scrutiny of all passports. An alien without a passport would of course be liable to deportation.

Supporters of the treaty endeavored to show that the presence of the clause on the subject of immigration in the treaty of 1894 was obnoxious to the dignity and pride of the Japanese Empire, and it was also argued further that the existing treaty would have expired in another year and this country could not hope to induce Japan to sign a new treaty containing such a clause.

After a full discussion the western senators said that they would not stand in the way of ratification, which was accomplished without roll call.

The Car That Got Lost.

The regular street car service in Guelph, Ont., consists of four cars which after covering their different routes, meet at the heart of the city. When all have arrived two start off up the main street and two down it, and soon each car is away on its own particular line along which it will return for the next gathering in the business centre.

To a Toronto visitor that frequent regular meeting of the cars was an interesting event, and he framed up this little talk about it for some citizens of Guelph.

"It's a great car system you have here. They tell me that an officer of the company goes out to the square very twenty minutes, counts the cars as they arrive, and, as soon as all four are on hand, says, 'All right, now. Go again, but be sure to be back in twenty minutes.' And they tell me that one day one car failed to show up, and that the official was worried half to death. He refused to be comforted or to be assured that the missing car would return. 'It's gone,' he wailed. 'It's got lost or somebody has stolen it. It's wandered away and can't get back.' But when he was at his worst the missing car came nosing around a curve up the main street. 'Why, there it is,' he yelled, and he ran to meet it. He got over his fright in a little while, but it was very reluctantly that again said, 'All right, now. Go again.'—Canadian Courier.

KILLING ALL FISH

Government Is Losing Its Most Valuable Fish—May Lose Thousands More

Ottawa.—As a result it is considered of hypochlorite that is being put into Ottawa's water supply to kill typhoid germs the government fish hatchery has already lost a number of valuable fish and may lose thousands more.

If, as feared, the eggs should be spoiled, the loss to the government will be considerable, as the varieties being hatched include such valuable mon and other fish not easy to procure inland and the number of eggs is enormous.

Vancouver Endorses Reciprocity

Vancouver.—The Vancouver Board of Trade recently, at a special meeting, advocated the adoption of the reciprocity agreement with the United States. The discussion was long and many sided, necessitating the calling of two special meetings. A resolution declaring the treaty to be a menace to interprovincial trade and to the commercial independence of Canada, was voted down, and an amendment calling upon the government to postpone action, lest disturbance of present trade conditions interfere with Canadian prosperity, found no second.

Alaska Moving for Annexation

Corvova, Alaska.—A movement is on foot in Alaska looking to the annexation of that territory to Canada. The men behind the movement assert the United States government does not seem disposed to relieve the territory of its present burdens and that annexation to the Dominion seems to offer the only hope. Mass meetings are being held and it is planned to ask congress to divorce Alaska from the American government so she can become allied with Canada.

Riots Continue in Amoy, China

Amoy, China.—Troops were called out recently to quell a fight in the city between rival clans. None of the clansmen were reported to have been killed, though several were wounded.

Will Ignore Annexation Resolution

London.—Premier Asquith, in the House of Commons recently said he did not intend signing any communication to the United States regarding the annexation resolution.

Chinese Being Expelled

St. Petersburg.—A despatch from Harbin reports that 4,000 Chinese are being expelled from the Amur territory.

A farmer may think he is buying a gold brick, but he never does.

THE SUNDAY SCHOOL

LESSON X.—FIRST QUARTER, FOR MARCH 5, 1911.

Text of the Lesson, I Kings ii, 1-18. Memory Verses, 11, 12—Golden Text, Gen. v, 24—Commentary Prepared by Rev. D. M. Stearns.

As we come to Elijah's farewell to earth for the present we might with great profit review and ponder his direct messages from the Lord, which, if I have counted correctly, were just eight (I Kings xvii, 2, 8; xviii, 1; xx, 9, xxi, 17, 28; II Kings i, 2, 16). In the previous chapter in connection with the messages from heaven to Elijah notice how God observes all that is done for or against Him, and also how He tells His servants when to go or stay. "The ways of man are before the eyes of the Lord, and He pondereth all his goings" (Prov. v, 21). Note the fire from heaven in chapter i, 10, 12, and compare Rev. vi, 15.

We should have noticed in last lesson the penitence of Ahab and the Lord's forbearance and long suffering (I Kings xxi, 27-29). Truly He is not willing that any should perish (II Pet. iii, 9).

Now we come in our lesson of today to something wholly unique in the Bible story, for, although Enoch also was translated, we have no record of the incidents connected therewith. Only these two have ever left the earth without dying, but a great company will have this privilege when Jesus shall come to the air for His church (I Cor. xv, 51, 52; I Thess. iv, 16-18). There is a fearful record in Rev. xix, 20, of two men who shall be cast into the lake of fire without dying.

This lesson story of the translation of Elijah and the beautiful devotion of Elisha is one of the most fascinating in Scripture and intensely practical. They are more intimately associated here than anywhere else, and their names, which are mentioned over twenty times in our lesson and signify "My God is Jehovah" and "My God is salvation," are so suggestive of Him with whom they both walked.

Elisha's oft repeated "As the Lord liveth and as thy soul liveth I will not leave thee" (verses 2, 4, 6) remind us of the devotion of Ruth to Naomi and of Ittai to David for the sake of the God of Israel (I Sam. i, 16, 17; II Sam. xv, 21).

The expressions "So they went," "So they went," "They two went on," "They two stood," "They two went over," "They still went on and talked" (verses 2, 4, 6, 7, 8, 11), suggest to us the possibility of such a fellowship with the Lord Jesus Christ Himself, seeing no one but Jesus only with ourselves and so occupied with Him that we shall be blind and deaf to all but Him (Mark ix, 8; Acts xxii, 11). The four places mentioned are easily suggestive of different stages of Christian experience, Gilgal reminding us of the reproach of Egypt rolled away, the past under the blood (Josh. v, 9, 10). Bethel tells of visions of God, ministering angels, etc.; Jericho was where the new captain appeared to Joshua, and the thirteenth round of the city brought down the walls.

ROYAL YEAST CAKES

MOST PERFECT MADE

We know and users of Royal Yeast Cakes know that these are the best goods of the kind in the World. Bread made with Royal Yeast will keep moist and fresh longer than that made with any other. Do not experiment—there is no other "just as good."

L. W. GILLET CO. LTD. Toronto, Ont. Awarded highest honors at all Expositions.

MADE IN CANADA

Only Once.

Tourist, (looking over a steep precipice): "I suppose people fall down here often, don't they?" Guide: "No; once is enough for most of 'em."

HIS OLD AGE MADE FREE FROM SUFFERING

BY GIN PILLS

"I am over 80 years of age and have been suffering with Kidney and Bladder Trouble for fifteen years. I took doctors' medicine but got no help. I want to thank you for sending me the sample box of GIN PILLS. I have taken six boxes of GIN PILLS altogether but got relief before I had taken near that amount. I had to get up some nights every fifteen minutes and use an instrument before I could urinate. Now, I can lie in bed four or five hours without getting up. I can say that GIN PILLS have nearly cured me and I shall always keep a box in the house."

W. H. PIERCE.

Do as Mr. Pierce did—write us for free sample box of GIN PILLS and see for yourself just how much they will do for you—then buy the regular size boxes at your dealer's—50c. or 6 boxes for \$2.50. GIN PILLS are sold with a positive guarantee of money back if they fail to give prompt relief. National Drug and Chemical Co., Dept. N. U., Toronto.

Tomorrow never comes—unless you have a note that is due.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugstore.

Walking on icy pavements is absolute security to trying to escape family jars.

Minard's Liniment Cures Garget in Cows.

Defending Counsel (to witness in bandages)—"Are you married?" Witness—"No, I was; knocked down by a cab last week."

Women First

"What would women do if they came into political power?" "I don't know," replied the man who works in a box office. "But I suspect each would try to pass a law giving her the right to step in at the front line of ticket purchasers."

"Wasn't that young Mr. Tiff who left the house as I came in?" asked the judge of his eldest daughter. "Yes, papa."

"Did I not issue an injunction against his coming here any more?" "Yes, papa, but he appealed to a higher court, and mamma reversed your decision."

BABY'S OWN TABLETS FOR ALL BABIES

Every mother of young children should keep a box of Baby's Own Tablets in the house. No other medicine has relieved so many little ones of the ailments that afflict them as have Baby's Own Tablets—no other medicine can be given baby with that absolute sureness of safety as can these Tablets. The mother has the guarantee of a Government analyst that they do not contain a particle of those harmful drugs that make those so-called "soothing" stuffs so dangerous to the life of the little one. The Tablets never fail to be of benefit. Concerning Mrs. Jno. A. Albert, Caracquet, N.B., writes:—"I am happy to state that I have used Baby's Own Tablets for constipation for my two children with great satisfaction." The Tablets are sold by medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An Englishman, having decided to buy himself a dog, dropped into a store where they made a specialty of dogs. Approaching a clerk, he said: "Hi wants a kind of dog about so high and so long. Hit's a kind of greyhound, an' yet hit ain't a greyhound because 's tyle is shorter nor any of these 'ere 'greyhounds an' 's nose is shorter an' 'e ain't so slim round the body. But still 'e's a kind of greyhound. Do you keep such dogs?" "We do not," said the clerk. "We drown 'em."

Nothing Much

Madge—Then you really believe in nothing? Sothead—I believe in anything I can understand. Madge—What a frightful skeptic you must be.

Shiloh's Cure

Mamma—The baby has cried for hours. Does he need medicine or spanking? Papa—You call up the doctor while I spank him.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional medicine. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or in perfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Shiloh's Catarrh Cure. Send for circular, free. Sold by Druggists, 74c. This is the Family Pill for constipation.

Sinick—I hear that the craze for motor cars has so increased the sale of a not previously popular book that the publisher can't keep up with the demand for it. Minnick—Indeed! What book is that? Sinick—"First Aid to Injured."

Mother's Value This Oil—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that there is no better preparation to be had for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

No one is without some quality by the due application of which he might deserve well of the world, and never he be that has but little in his power should be in haste to do that little lest he be confounded with those who can do nothing. —Samuel Johnson.

FARM HINTS

Varied Items of Interest to the Farming Community.

POULTRY

The following rules will be good ones to apply in connection with handling eggs on a co-operative basis; that is, where the community is thickly settled enough for a good number to be shipped.

A number of co-operative egg-producing associations are now in operation throughout the state and have been unusually successful in securing for the members of the association a satisfactory premium over ordinary store eggs. We recently noted the rules of one of these associations. In the thought that they would be of interest to poultrymen generally, we reproduce them herewith.

The eggs must not be over 7 days old at any time when delivered at the receiving place. They must be brought in at least once every week in winter and in hot weather they must be brought in twice a week.

The eggs must be taken in from the hen house twice a day. All eggs must be clean and of a uniform size. No small or overly large eggs must be accepted.

As soon as gathered the eggs should be stamped and placed in the cartons and kept in a cool place until delivered. A lar is all right if not too damp or musty.

Brown eggs shall be put in one carton and white in another and each carton so marked.

Stamp every egg with your number stamp so that the number shows up when the eggs are in the carton. Put the egg in the filler cornerwise and don't straighten up and down.

Your number stamp should be stamped on the right side on top of the carton and the color stamp on the left side.

Don't use too much ink in stamping. It might work through the shell, only a light mark is necessary. Try your stamp on paper first.

Don't wash the eggs. That takes off the glaze. Keep nest, boxes and floors clean and well bedded with clean straw. Use a cloth to wipe the eggs if necessary.

Don't allow broody hens to sit on the eggs. Close them up separately. Keep the small cockerels away from the hens when large enough. It is best to keep the large roosters away also when it can be done.

Don't put in any small or pullet eggs. Use them at home. Also all odd shaped or spotted eggs. They are just as good for use at home.

Don't put in any eggs from hidden nests, or eggs you are not absolutely sure of.

Remember that you will be held responsible for the quality of all the eggs you sell. If you sell any bad eggs they will be traced back to you and charged up double price. Any one who uses dishonest methods with us will be immediately dropped from the association.

We have been paying and expect to pay several cents a dozen over the regular market price for—case eggs. We keep just enough to cover necessary expenses and to put a little into a reserve fund. This reserve fund belongs to you. At the end of the year this will be divided among the members if so decided, according to the amount of eggs they have sold. If so decided will be kept as a reserve. A statement will be given to each farmer at the close of the year showing how many eggs he has sold. As soon as you commence to sell eggs with us you belong to our association; you get an interest and a vote in same. You can say that the business is yours and you can get every cent that your eggs bring after expenses of handling have been taken out.

Minard's Liniment Cures Colds, etc.

Faithful to the End
"Kind sir," said the weary wayfarer, "I have lost nearly everything—money, friends, self-respect. There is but one thing that has never deserted me."
"Poor man!" said the sympathetic listener, "here is a penny. And that one thing is?"
"My thirst," replied the weary wayfarer, as he moved quickly away.

No man or woman should hobble painfully along because of corns when so certain relief is at hand as Holloway's Corn Cure.

Real Bargain

"I cannot marry you, I have promised my name to someone else, so I must return all your presents."

"Good gracious, whatever can I do with them now?"

"My fiancé would buy them off you at a slight reduction."

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 25c.

Mulligan, the contractor, put up a church building. Dunn was building inspector then, and when he saw the church he said: "Pat, it isn't plumb."

That made Mr. Mulligan pretty mad. He climbed right up and began to take measurements. Having squinted down the plumb line in a dozen different places he was ready to report. There was a ring of triumph in his voice.

"Mr. Dunn," he said, "come and look at it y'rself. Plumb, eh? By the piper that played before Moses, it's more than plumb."

Doctors Said Health Gone

Suffered with Throat Trouble

Mr. B. W. D. Barnes, ex-Sheriff of Warren County, Tennessee, in a letter from McMinnville, Tennessee, writes:

"I had throat trouble and had three doctors treating me. All failed to do me any good, and pronounced my health gone. I don't recall to try Peruna, and after using four bottles can say I was entirely cured."

Mr. B. W. D. Barnes.

Mr. Gustav Himmelsreich, Hochheim, Texas, writes:

"For a number of years I suffered whenever I took cold, with severe attacks of asthma, which usually yielded to the common home remedies."

"Last year, however, I suffered for eight months without interruption so that I could not do any work at all. The various medicines that were prescribed brought me no relief."

"After taking six bottles of Peruna, two of Lactipia and two of Manalin, I am free of my trouble so that I can do all my farm work again. I can heartily recommend this medicine to any one, who suffers with this annoying complaint and believe that they will obtain good results."

Wouldn't Buy

Visitor—"We're getting up a raffle for a poor old man. Won't you buy a ticket, my dear?"

A Riss Out of Booker Washington.

The negro sense of humor was well illustrated by Booker T. Washington in his address in Milwaukee.

"I was walking along a road near Tuskegee institute and met an old colored woman," said Mr. Washington. "Just to make conversation, I remarked: 'Where are you going, auntie?'"

"The old lady looked up at me with a comical twinkle in her eye. 'Ah! she's done 'b'en whar' Ah's gwine, she said."

"Then she laughed and went on her way, satisfied that she had taken a rise out of me."—Milwaukee Free Press.

Obstinate Open Sores are Healed by Zam-Buk

For sores which defy all ordinary remedies, Zam-Buk should be tried. Old wounds, varicose ulcers, cold cracks, blood-poisoning and chronic skin diseases cannot resist the healing influence of this great herbal balm.

Miss Alma Bourque, of Notre Dame, Kent Co., N.B., gives the following account of what Zam-Buk did for her after various other ointments and salves had failed. She writes:

"For months I suffered with a running sore on my leg. I tried several ointments and salves, but none of them could bring about a cure. The sore would just heal over, and then break out again. I read in a newspaper one day, of the good Zam-Buk had done, and so I determined to try it and see what this balm would do for me. I also purchased some Zam-Buk soap."

"I washed the sore night and morning with the soap, and then applied the balm. I continued with this treatment, and after using Zam-Buk for a few weeks the sore was completely healed. I have recommended Zam-Buk to one or two of my friends for sores, and in their cases it has been equally effective."

All druggists and stores sell Zam-Buk at 50c. box or may be had post free from Zam-Buk Co., for price. It is a sure cure for piles, inflamed places, cuts, burns, scalds, chapped hands, ulcers, eczema, scarp sores, and all similar diseases and injuries. Refuse harmful imitations.

Not As It Seemed

One day last winter a gentleman saw a boy in great apparent danger, having broken through the ice in the river. He was clinging to the edge of the ice making a most pitiful sight. The gentleman was so deeply affected that he did not hesitate to risk his own life in a rescue. Lying flat on the ice, he ventured out as near the hole as he could go, and reached forward a light stick, which he told the boy to hold on to. Slowly working backwards, he brought the little fellow on to strong ice and land. Once there, he told him to run home as fast as he could. It was very cold, and the boy was wet to the skin. He declined to go, saying he would only get a whipping when he arrived there. Nothing would start him along, and he stayed there shivering and whimpering, until finally, in indignation, his rescuer turned on him and said:—

"Well, I wish I had left you there to drown."

He was, to say the least, surprised when the little fellow answered, "I wouldn't have drowned; I was standing on the bottom all the time!"

Taken Down

To test the safety of the church steeple a country vicar climbed it with a scaling ladder—a feat requiring no small amount of nerve. He was proud of the achievement, and talked rather more about it than was, perhaps, consistent with modesty. He even, at a meeting of his parishioners, described, with a wealth of detail, his feelings while aloft.

"When I reached the top and saw the huge golden weathercock gleaming in the sunlight, what do you think I did?" he asked.

An old farmer, who looked the picture of boredom, hazarded a guess. "You cheated the weathercock," he said.

"What do you mean, sir?" sharply demanded the vicar.

"Why, you did it out of the job of crowing," the unperturbed old farmer replied.

Shows Remarkable Progress

An epitome of the Report of The Great-West Life Assurance Company for 1910 which appears upon another page gives an account of remarkable progress and success.

It is no small distinction that a company, established but 19 years, should have reached a business in force exceeding \$56,000,000, and should, for four successive years, have stood first among the companies for Canadian business. It is equally notable distinction that in all the rapid expansion occurring, the sound principles of economy have been given such prominence that no other Canadian company has a lower expense rate than the Great-West, and in investments approaching \$6,000,000, no loss of principal or interest has yet occurred, while the interest rate on investments stands at the highly satisfactory figure of over 7 per cent.

It will be observed that over \$14,000,000 of business was written by the Great-West in 1910, thus establishing a new Canadian record, and it is a clear indication of the value the policyholders attach to their contracts to find that with the large business was an equally noteworthy gain in business in force of over \$11,000,000.

The original view of the founders of the Great-West Life has been abundantly endorsed by time—that an institution operating in the West, managed by those familiar with western conditions, and investing its funds in the profitable avenues available in the growing West—could do remarkably well for its policyholders.

Such a report as that issued by the company in 1910 clearly shows that the East has joined with the West in expressing appreciation of a company that in lower premiums, higher profits and liberal conditions can offer to those needing protection such advantageous policies.

W. N. U., No. 834.

A LITTLE STORY OF IRRIGATION

There were two men who had two adjoining quarter sections in the Canadian Pacific Railroad's Irrigation Block in Southern Alberta; one was a farmer, the other thought he was. They both got up early in the morning, cultivated their ground and planted their crops. The farmer employed irrigation intelligently; the other man trusted to the Lord to send the water along at the right time.

When the harvest came, the farmer took off 40-1-2 bushels of winter wheat to the acre, the other man took his note to the bank to have it renewed. The farmer made enough off his crop to:

1. Pay for the land at \$20 an acre
2. Reimburse himself for the expenditure in connection with cultivation of his land.
3. And to pay for the fences and other improvements on the land.

Irrigation farming is successful farming because it is business farming. You don't have to worry about weather conditions. Your crop is INSURED and your future and independence ASSURED.

PROVINCIAL NEWS

J. S. Dennis Returns from
Abroad

J. S. Dennis, manager of the Canadian Pacific Railway Company's land and irrigation interests in the West, returned this week from his visit to Great Britain and Europe, having been absent for the last two and a half months. His trip was made with the object of conferring with the officials of the company in Great Britain, relative to the extension of the company's organization in Great Britain and Europe, to encourage a larger number of people to come to western Canada. The result was that offers have now been opened in Bristol, Liverpool, Glasgow and Edinburgh, in addition to the large central office which has been in operation in London, and the organization has also been extended on the northern European continent, with large central offices at Rotterdam.

During his absence, Mr. Dennis delivered a series of lectures in Great Britain on the development of western Canada, and the bearing of that development on the future of the Empire. These lectures attracted a great deal of attention and received wide newspaper publicity. Remarkable interest in everything Canadian, particularly in the development of western Canada, was evinced in Great Britain, and the movement of settlers from that country to Canada gave promise assuming unusually large proportions this year. Over 1000 people applied for the 100 "ready-made" Bow Valley farms listed on the British market this year, and the one hundred families who will be brought out in April to occupy these farms, will comprise probably the finest class of tenant farmers who have ever come from Great Britain to this country.

An unusually large number of first-class immigrants from northern Europe, particularly from Holland and Belgium, are expected early in the spring, to take up land in Alberta. On his return journey Mr. Dennis spent some time in Montreal, conferring with the management relative to the expenditure of the company's lands in the West for the present year, and the appropriations approved involve an expenditure of over \$5,000,000, the larger portion of which will be spent in extending the irrigation system in the Irrigation Block, but the amount also includes large sums for "ready-made" farms in Central Alberta, and for development of the company's lands in southern British Columbia.

An appropriation was approved for construction of a new office building for the land department in the Calgary district. The present building is to be removed to make room for the new C.P.R. hotel. This new office building, with the new hotel and the completed station, will provide a very fine block of buildings on the company's property in the centre of the city.

On his way west, Mr. Dennis visited the company's offices in Chicago, Minneapolis, and St. Paul, and found the reports received through these offices from the large agency organization in the United States indicate that we may look for a banner year in the way of movement of people from the United States to western Canada, and particularly Alberta.

Press Club Opening
The "birth banquet" of the Calgary Press Club was held last Saturday evening, when the members of the press were all present, and the guests of honor were Mayor Mitchell, C. W. How, manager of the Canadian Bank of Commerce, C. W. Peterson, superintendent of irrigation for the Canadian Pacific Railway Company, and P. J. Nolan. Mayor Mitchell formally opened the new club rooms in a felicitous speech, and interesting addresses were given by the president, Everett Marshall, of the Herald, and the guests of honor.

It is officially announced that the sixth annual camp of the Alpine Club of Canada will be held in the Alpine meadows above Sherbrooke Lake during the last week in July and the first in August. It will be known as "The Great Divide Camp," as the work done by the club's members will be done on the peaks of the great divide, close to which the camp will be situated. Sherbrooke Lake is situated about two and a half miles northwest from the station on the main line of the C.P.R.

C. W. Peterson, superintendent of irrigation for the Canadian Pacific Railway Company, has announced that the management has decided to provide very complete operation headquarters at St. Albans, in view of the intention to erect a large administration building, as well as residences for various employees, and a water mill.

This work will be proceeded with at once, and will involve an expenditure of about \$25,000.

New Irrigation Superintendent

The announcement is now made that Robert Stockton, C. E., a present employee by the United States Reclamation Service on the Yellowstone project in Montana, has been tendered the position of superintendent of operation and maintenance, and will enter upon his duties at the end of the present month. Mr. Stockton is particularly qualified to handle the operation and maintenance branch of the irrigation department. He was born on an irrigated farm in Colorado, and after taking his degree, became professor of mathematics, and later of the civil engineering in the Colorado School of Mines. He entered the reclamation service some ten years ago, having charge of the designing, construction, and operation of the Huntley project, later being appointed manager of irrigation at Yellowstone.

Banquets to J. S. Dennis

In view of the wonderful publicity work for Alberta's development by Mr. J. S. Dennis during his recent visit to Great Britain, the Board of Trade, at a special meeting, resolved to honor Mr. Dennis with a banquet. The committee in charge of arrangements for Mr. Dennis to ask him what date would be most convenient to him, and he decided upon the middle of March. Premises of all the western provinces will be invited, as well as other prominent men, and it is expected that it will be a notable occasion.

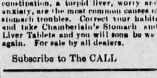

The staff of the Canadian Pacific Irrigation Department, of the British Columbia and the Alberta land departments held their annual dinner Saturday evening, with Mr. Dennis as their guest of honor.

A huge box of publicity matter now ready in Calgary to be shipped off to England, and within a few weeks, the box will be received at the offices of Lord Strathcona, High Commissioner for Canada in London, England. The number of pamphlets in the year, made up per acre yielded by land arrangements, were forwarded to the country, population figures will their eloquent tale—those are some of the facts included in the literature which will be shipped to the old country.

Following the great success attending the recent formation of a corps of B.P. girl guides, a sister organization in the Boy Scouts of Great Britain, and the useful work they are doing, causes a movement to establish similar corps throughout the Dominion of Canada. A smart uniform will be adopted and the work will include trail-making, scouting, a little drill, training to be done, and first aid in time of need. Preparation of plain food, the making up of beds and stretchers, and stretcher drill are all in the work undertaken by girl guides, besides a hundred and other accomplishments.

Refectory habits, lack of outdoor exercise, insufficient ventilation of dormitories, a varied liver, and a lack of exercise, are the most common causes of rheumatism. Correct your habits and take Chamberlain's Rheumatism and Liver Tablets and you will soon be well again. For sale by all druggists.

Advertise in The Call**TOWN AND DISTRICT**

The Queenstown folk are all agog over the survey of the C.P.R. through that fertile district. A daughter was born on Saturday to Mr. and Mrs. D. H. Crapo, being grand.

Wm. Bess was in from Mosehold Monday morning acquaintances. C. Calhoun has sold out his blacksmith shop to Harry Laetche, who takes possession immediately.

Mrs. Ravess was down from Calgary last week visiting her parents in Glenclon, on a short vacation from school.

W. J. Ware, Nanaka's popular postmaster, is happy in the arrival of a son at his home Monday, Feb. 27th.

Mrs. Ward is giving a "hook tea" on Tuesday, March 23rd, from 3 to 6 p.m., at which a collection will be taken in aid of the Women's Auxiliary.

McLeod Bros., who a short time ago purchased R. H. Hogg's premises next to The Call office, now have their plant installed for automobile repairing, and all kinds of machine work. They state they have on the way to Glenclon four of the best makes of automobiles, and will be prepared to supply "large rides" for all.

A new business firm has been formed in Glenclon the past week to be known as "The Alberta Transfer" by A. S. Wood as manager, who has acquired the business carried on by Geo. W. Hunter for the past four years. In that time Mr. Hunter has built up an excellent rep and express business by careful and prompt attention to the smallest details, and "Happy" merry laugh will be greatly missed about town. George has been given this nick name for the reason that he is ever obliging and by force of his jovial nature makes every one enjoy his smile. However, he has not yet decided to leave town, and we hope will enter into some other business. His successor, Mr. Wood, is also well known about town having been the obliging C. P. R. baggage-motor for the past six months and his many friends will "heart" every success. The Alberta Transfer will be in business yesterday and are preparing to give every satisfaction to all patrons.

Remember the date of S. L. Taube's visit to Glenclon and if you have any "eye troubles" don't fail to take advantage of this opportunity to have your eyes properly attended to. All work is absolutely guaranteed.

have any "eye troubles" don't fail to consult him at A. R. Yates' Drug Store, on Thursday, March 23rd. All work guaranteed.

Are your eyes right? If not, be sure to consult S. L. Taube, who will be at A. R. Yates' Drug Store, Glenclon, on Thursday, March 23rd. All work guaranteed.

Mr. Van Oulke has been visiting old friends for several days in Nanaka. Van is very enthusiastic over the way the school is conducted under the present management.

Messrs. Grimes & Grindley arrived from Calgary last week and rented the old bowling alley parlor in Glenclon, on a short vacation from school.

W. J. Ware, Nanaka's popular postmaster, is happy in the arrival of a son at his home Monday, Feb. 27th.

H. West will hold another of his popular auction sales at the Glenclon Horse Repository on Saturday afternoon next, with Jack Thompson a auctioneer. These semi-weekly sales are now being looked forward to and it is Mr. West's intention not only to hold them regularly but to continue to improve them in every possible manner, according to the demand, which will undoubtedly be large now that spring is at hand and many are getting out their mowing horses, cattle, furniture, etc., model. This sale next Saturday promises to be the largest yet held this season. Mr. West has secured a fine big bunch of all classes of horses, vehicles, harness, etc., and a large lot of household furniture, which will be sold without reserve.

Mr. Thompson has shown his ability as an auctioneer and can be counted upon to give every one a square deal and start the sale promptly at 1.30.

Miss Beaulieu, milliner at "The Busy Store" has been obliged on account of ill health, to resign her position, and her place has been filled by Miss Alice Murray, of Kingston, Ont., who has had several seasons experience in one of the large millinery establishments of that city. She is now busy opening and arranging the new season's stock, and will be pleased to see all the ladies on the important subject of spring hats.

Mr. and Mrs. Duncan Clark are happy in the arrival of a son at their home at Crowfoot on Thursday, Feb. 23rd.

FINAL FINISH

The J. A. E. BEAUPRE'S General Stock of Merchandise being Sold Out in Double Quick Time by Beshears Bros. & Co., of Spokane and Calgary

All Groceries Selling at Cost

These are just a few of our many bargains. How do they appeal to you? Well, you will have to hurry, they cannot last long, and there will be no more when these are gone. Surely you cannot afford to let this opportunity pass you by. Also, do not forget the valuable Prize we are giving away FREE each Saturday; but at the rate this stock is going we will not be here much longer.

Fair Warning. Act Quickly

Just a few Final Finish Prices—if we were to offer you \$10.00 gold pieces for \$8.00 it would be a Bargain, would it not. Well, we are doing better than that.

Greatest Eruption Known

The San Francisco earthquake was a great eruption; but nothing compared to the eruption now going on at J. A. E. BEAUPRE'S STORE. Daily people are hurrying to take advantage of the many bargains while they last. They quite understand at the prices we are selling this stock it cannot last very long. Never before, and, maybe, never again will goods be slaughtered at such ridiculous LOW PRICES. Just think! ALL GROCERIES being sold at Wholesale COST, and thousands of other goods away below cost.

FACTS!

This is no hear-say story, or paper talk; but Genuine Facts. What we say, we do. The proof this is a personal inspection of our goods and prices. Come expecting much and you will not be disappointed. This is a case where price is not our object, it is a matter of disposing of this stock in just as short a time as possible, as Mr. J. A. E. Beaupre is retiring from the retail business and intends making his future home in Vancouver, B.C.
